

LEGALEASE — FUNCTIONAL FEATURES

FEATURE COUNT: 9

1. Document Type Input

User can specify what kind of legal document (NDA, Contract, Lease, etc.)

2. Parties Input

User can enter all involved parties with their roles.

3. Terms & Conditions Input

User can enter specific clauses separated by semicolons.

4. Effective Date Input

User can set when the document becomes legally valid.

5. AI Document Generation

Google Gemini generates a complete legal document from inputs.

6. Live Preview

Document displayed in a dark-themed, scrollable preview box.

7. Inline Editing

"Click to Edit Document" button opens a text area for modifications.

8. Multi-Format Export

Download as .txt (plain), .docx (Word with Times New Roman), and .pdf (branded).

9. Error Handling

Graceful messages for API errors, rate limits, and empty inputs.

BONUS FEATURES:

- No authentication required (instant access)
- Session state preserves document across edits
- Sanitizes markdown symbols from AI output
- Filename auto-generated from document type
